New Jet Loom Web Debut May 25, 2021

Dear Sir/Madam,

We would like to inform you that TSUDAKOMA will showcase our new jet looms on the web.

This is an invitation for the customers who have been continuously supporting TSUDAKOMA's jet looms or are considering our jet looms for the first time.

By redeveloping the frame structure, the new ZAX001 neo air jet loom will aim for a new standard of ultra-high speed and high quality weaving.

While inheriting the basis of the best-selling ZW8100 water jet loom, the ZW8200 Professional water jet loom will lead synthetic fiber weaving to ever higher levels. We ensure that the ZAX001 air jet loom and ZW8200 water jet loom will be an ace in the hole for your corporate strategy to meet the SDGs in the post-pandemic environment.

A special website will be available on May 25, 2021, 10am (JST).

Please visit <https://www.tsudakoma.co.jp/newjetlooms/>
